Satellite Symposium “The Kidney and Hypertension”
of IUPS2009 at

- Club Kanto on the 19th Floor of Tokyo Ginko Kyokai Bldg
  (Marunouchi 1-3-1, Chiyoda-ku, Tokyo, 100-0005), July 24
- Lecture Room (#1501) and Kitasato Hall of Kitasato University
  Pharmaceutical Sci at Shirokane Campus in Tokyo, July 25

Scientific Program

Session 1. RAAS, Cardiovascular Risk & CKD
(Evening July 24)

RAAS and CKD (S Ito, Sendai)
Lessons on the Function of the Juxtaglomerular Apparatus from
Transgenic Mice (J Schnermann, Bethesda)

Session 2. Epithelial Na Channels (Morning July 25)

Epithelial Na Channels and Regulation of Na Excretion
(LG Palmer, New York)
Activation of ENaC by Prostasin (K Kitamura, Kumamoto)

Session 3. Salt and Hypertension (Afternoon July 25)

Renal Salt Transport in Claudin-2 Knockout Mice
(S Muto, Shimotsuke)
NaCl Transport in Salt Sensitive Hypertension
(G Capasso, Naples)
The Serum and Glucocorticoid Inducible Kinase in Transport
Regulation, Hypertension and Diabetes (F Lang, Tübingen)

Executive Organizing Committee: IUPS2009 Satellite
Symposium “The Kidney and Hypertension”
President, Katsumasa Kawahara, Professor, Kitasato Univ
Sch of Med, Physiology
Treasurer, Kouju Kamata, Professor, Kitasato Univ Sch of
Med, Nephrology

Under the Patronage of Kitasato Univ, Kitasato Univ Sch of
Med & Its Alumni Ass, Kitasato Grad Sch of Med Sci,
Kidney Foundation (Jpn)
